

My dear friend in Jesus,

I am sorry I have been so very busy with the Lord's business these past weeks that it has not been possible to write to you. I received your last letter. I think you are getting a small Salvation Army in Wernamo, and you seem to be Captain! Go on. You are the Lord's and He will lead you, and use you, and keep you.

We have had a wonderful Christmas time. God has most blessedly and wonderfully come down at every meeting. I wish you could have been with us. I hope that you may some time or other have the opportunity of spending some time with us and attending the meetings. We will have some special gatherings on purpose when you come.

This week 2 officers leave London to take up the work of The Salvation Army in Australia, so that we are still spreading out our borders. Pray for that part of the world.

Let me hear more about that young man and woman. I am afraid the kind of testament you asked for cannot be obtained. Do you know if such is printed?

I am glad you got the American address, I could not get the medicine in London and I thought the best thing to do was to write to them direct.

I hear Mr Billups is going to Sweden again shortly, but I am not sure.

I have been very poorly the last month. I am very unwell even now. I cannot go on with so much work to do and must have more help. It is possible Mr Railton may come back from America. Pray for me.

Follow the Lord in 1881. It must be all for the Kingdom and for the King. Neglect no promise he has made. Possess all the land and take Isaiah 41: 9 and 10 to be yours.

God bless you and keep you. I will shortly write again. Faith knows no fear. Faith knows no care. Faith does not doubt! Only believe, believe, believe.

Did you get the sermons?

Yours affectionately in the Lord of Love and Light and Life
